Marwan Ayman — DevOps / Cloud Engineer

marwanayman.shawky@gmail.com | +201122889126 | github.com/maroayman | linkedin.com/in/maroayman | maroayman.dev

Summary

DevOps Engineer with hands-on experience building GitOps CI/CD pipelines, automating cloud infrastructure with Terraform, and deploying Kubernetes clusters on AWS and on-prem environments. Experienced with Docker, Helm, Ansible, and observability tooling. Focused on reliable, scalable systems and infrastructure-as-code.

Work Experience

DevOps Engineer Intern Jan 2026 — Apr 2026
IP Protocol INC *Cairo, Egypt*

- Adapted a GitOps platform for on-prem infrastructure and standardized deployment workflows.
- Provisioned Rocky Linux VMs on Proxmox VE and deployed a high-availability Kubernetes cluster.
- Deployed private infrastructure services including Gitea, MinIO, and a Docker Registry.
- Automated infrastructure synchronization and deployments using FluxCD, reducing manual intervention.

DevOps Trainee Jun 2025 — Dec 2025
Digital Egypt Pioneers Initiative *Cairo, Egypt*

- Completed intensive training in Linux administration, CI/CD, Kubernetes, and infrastructure automation.
- Built practical cloud-native projects using Terraform, Docker, and GitHub Actions.

Projects

Kubernetes CI/CD Automation with GitHub Actions & ArgoCD
AWS EKS, Terraform, Docker, Helm, ArgoCD, GitHub Actions

- Provisioned an AWS EKS environment with Terraform, enabling repeatable Kubernetes infrastructure deployment.
- Automated Docker image builds and Amazon ECR publishing with GitHub Actions, connecting code changes to the container delivery workflow.
- Integrated Helm and ArgoCD for GitOps-based deployments, enabling automated reconciliation, configuration drift detection, and rollback to previous application states.

Terraform-Driven AWS Infrastructure Deployment
Terraform, VPC, EC2, Auto Scaling, ALB, S3

- Automated AWS network and security provisioning with Terraform, replacing manual resource configuration with reusable infrastructure code.
- Deployed EC2 workloads behind an Application Load Balancer and Auto Scaling groups, enabling traffic distribution and automatic instance replacement.
- Configured S3 for backups and static asset storage, separating persistent data from compute resources and supporting recovery operations.

Skills

- **Cloud & DevOps:** AWS, Docker, Kubernetes, Terraform, Ansible, Linux, Proxmox
- **CI/CD & Tools:** Git, GitHub, GitHub Actions, Jenkins, ArgoCD, FluxCD, Prometheus, Grafana
- **Programming:** Python, Bash, Go
- **Databases:** MySQL, PostgreSQL

Certifications

- Microsoft Certified — Azure Fundamentals (September 2026)
- Google Cloud Certified — Associate Cloud Engineer (June 2026)
- AWS Certified — Cloud Practitioner (May 2026)
- Huawei Certified — Cloud Developer Associate AI (March 2025)
- Huawei Certified — Cloud Developer Associate Tech Essentials (January 2025)

Education

Bachelor of Science in Computer Science Sep 2018 — Jan 2023
Helwan University *Cairo, Egypt*
